

## Experience the SEEBURGER Difference

The SEEBURGER MFT Solution – part of the Business Integration Suite – is German-engineered from the ground up using a single source-code base. This holistic approach means that your file transfer challenges are solved while reducing risk and costs, and protecting intellectual property.

### End-to-End

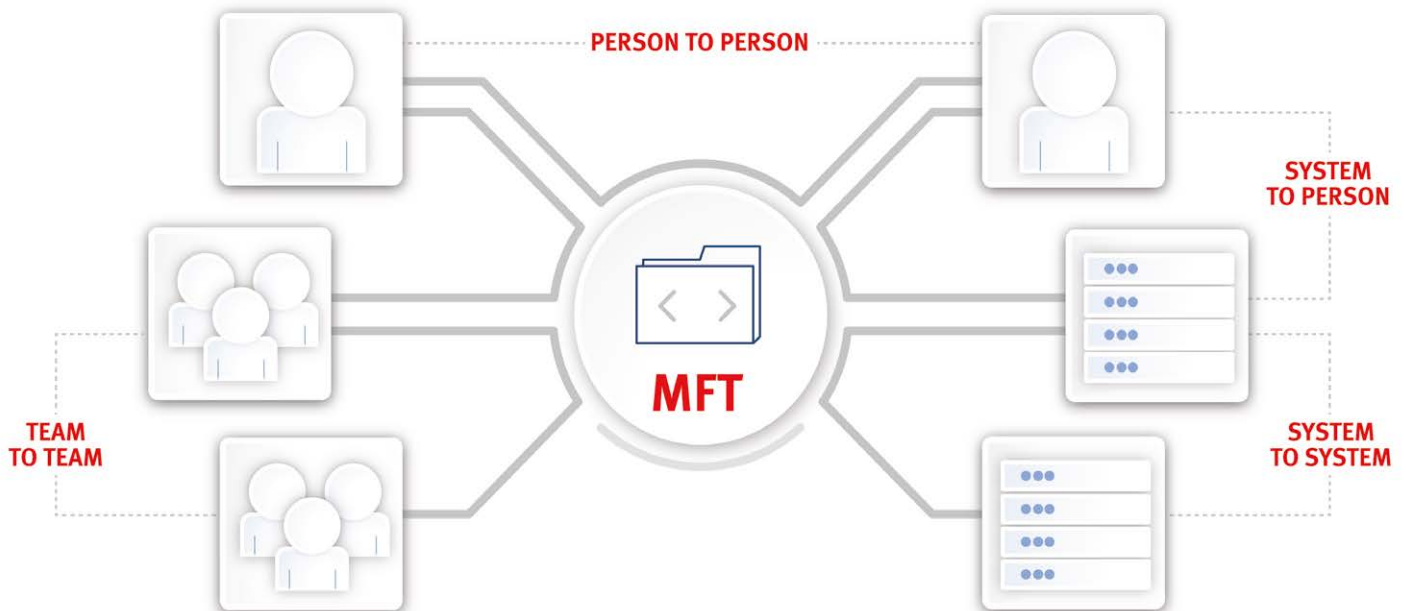

The MFT Solution, at its core, ensures that files of all sizes are successfully transferred

### Secure

MFT uses state-of-the-art security methods in both the automated and ad hoc processes

### Monitored

With MFT, you know, and can PROVE, that critical data arrived at its destination

### Internal

Sensitive data moves safely

- Financial data
- Price lists
- Contracts
- Customer data

### Regulatory

Ensure Compliance

- Automated policies can meet compliance, security, or business requirements
- Track progress of all transfers
- Maintain operational data for IT audits, compliance, system analysis

### Partners

Collaborate with Ease

- Exchange large product imagery
- Transfer digital video and creative assets
- Distribute CAD files for virtual teams

# SEEBURGER MFT - a Comprehensive Solution

## Ad Hoc

### Person-to-Person

- ✓ As simple as email, but secure
- ✓ Integrates seamlessly into desktop environments
- ✓ Mobile apps (iOS / Android)

### USE CASES

Retail: Transfer high-res images and product catalogs  
CPG: Transfer ad designs, promotional videos  
Engineering: Exchange of CAD drawings

## Teamwork

### Team-to-Team

- ✓ Protected virtual data rooms
- ✓ Control of file/folder lifespan
- ✓ Share/subscribe to folders
- ✓ No file size restrictions
- ✓ Synchronization of folders

### USE CASES

Team collaboration for RFP responses  
Secure depository for board information  
Sensitive data containment (e.g. Personnel information)

## Automated

### System-to-Person

- Permanent communication channel for recurring file transfers
- Automated file transfer of sensitive reports to distribution lists (sales reports, etc)

### USE CASES

Engineering: Automated distribution of software updates  
High-tech: PC makers distribute system images to sub-contractors  
Retail: Automated transfer of price lists

## Integrated

### System-to-System

- Use standard protocols (HTTPS, SFTP, etc)
- Systems with no standard communications can leverage BISLink

### USE CASES

Automotive: Master data transfer  
Manufacturing: Transfer of CNC production data in real-time  
Engineering: Cax data transfer to PDM/PLM  
Retail: Connection of PoS Systems

## Benefits of the SEEBURGER Business Integration Suite

FUTURE-PROOF YOUR BUSINESS THROUGH INTEGRATION

**30 Years' Experience**   **Over 10,000 Global Customers**   **100% German-Engineered**

Digital transformation is forcing companies to implement digital business models and roll out consistent networking strategies across all of their business areas.
